

Charitable Contributions Report Fall 2021

As the Charitable Contributions Chair, during the 2020-2021 year I have overseen two contributions:

1. Plimoth Plantation - \$500
 - a. This year we made our donation to Plimoth Plantation in supporting the Rare Breed Animals. In the 17th-Century English Village at Plimoth Plantation, they try to show how the Pilgrims lived. They keep farm animals like the ones they owned. These animals are called “Rare Breeds” because they are endangered. There aren't many of them left in the world today.
 - i. The cows in the English Village are black Kerry cows and red Milking Devon cows. They aren't black with white spots like many of today's cows. They are all black or all red.
 - ii. Some of the goats are from San Clemente Island, which is off the coast of southern California. They also have goats that came all the way from New Zealand!
 - iii. The chickens in the English Village are called “Red Dorking” chickens.
 - b. Plimoth Patuxet exhibits all of these special animals so that people can learn more about how people lived in the past, and preserves and protects them so that people can continue to enjoy them in the future.
2. Franklin D. Roosevelt Presidential Library and Museum - \$200
 - a. The Museum collects and preserves materials related to the lives and careers of Franklin and Eleanor Roosevelt and their friends, family, and associates.
 - b. The library provides detailed genealogical charting of family lineage for both Franklin Delano and Anna Eleanor Roosevelt.
